Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/783,652	Applicant(s) DEWIS ET AL.	
	Examiner Leslie Wong	Art Unit 1794	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 17-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Galopin et al (Abstract 0056, 224th American Chemical Society National Meeting, Aug 2002) for the reasons set forth in rejecting the claims in the last Office action.

Galopin et al (Abstract 0056, 224th American Chemical Society National Meeting, Aug 2002) disclose a variety of derivatives of sanshool chemicals for use in foods as is claimed (see abstract).

The claims differ as to the specific substituents.

Galopin et al disclose a minimal structure and address the synthesis of derivatives.

In the absence of a showing to the contrary, once the minimal structure is identified the selection and manipulation of substituents is no more than obvious and well-within the skill of the art.

It would have been obvious to a person of ordinary skill in the art, at the time the invention was made, to use the claimed substituents in that of Galopin et al because once the minimal structure has been identified the manipulation of substituents is no more than conventional in the art.

Applicant's arguments filed June 13, 2008 have been fully considered but they are not persuasive.

Applicant argues that Galopin et al do not teach the minimal structure.

Galopin et al is cited to teach sanshool chemicals. Applicant is directed to Figure 3 of Galopin which teaches Applicant's basic structure.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leslie Wong whose telephone number is 571-272-1411. The examiner can normally be reached on Tuesday-Friday.
